

The Lenny Project

www.nerbasbrosangus.com

- ✓ We are a maternally based herd with a singular breeding goal of making better females, generation over generation.
- ✓ Forage and pastoral based, our cows average 1250 lbs / 4.5 frame score. We have a unique type suited to such.
- ✓ We graze 8 months of the year in Canada without supplement. Holistic and regeneratively managed for over 20 years.
- ✓ Cows must be able to manage with their available resources, very much a systems first approach.

Lenny at 4 months of age

Nerbas Bros. Angus
@NerbasBrosAngus

Grand sire on pedigree top side.

Nerbas Bros. Angus
@NerbasBrosAngus

Noteable females in the pedigree.

Nerbas Bros. A... · 12/12/24  ...

NBA 1C is a half sister to Lenny's dam. They are both daughters of our foundation cow NBA Wonita 13Z.

Nerbas Bros. A... · 7/16/23

The Wonita cow line continues to self replace. 🙌
#1C

Nerbas Bros. Angus
@NerbasBrosAngus

Noteable sires in the pedigree.

Nerbas Bros. Angus
@NerbasBrosAngus

NBA 2F is a full brother to Lennys
dam NBA 2D.

Nerbas Bros. Angus @... · 7/5/23

I think he's saying he's ready.
